

## Pro Ultra

Pro Ultra device combines the lightweight construction of the carbon fiber Professional series and the modern design of the Sport II, while allowing easier entry and exit in smaller, tighter driver compartments. Pro Ultra uses 100% carbon fiber construction and a hollow core for further weight reduction. Meets SFI 38.1 specifications.

## Correct Fitment

The angle of the driver's chest when seated should match the angle of the Hans® Device. When correct, the Hans® rear collar will not interfere with the helmet or seat.
